## Discover!

Homeopathy has been practiced for more than 200 years!

The founder of Homeopathy was **Samuel Hahnemann**, a German physician, pharmacist and Privy Councilor ('Geheimer Hofrat'). He lived from 1755 to 1843.

Hahnemann treated some very famous people such as the Count of Schwarzenberg, Duke Ernst von Sachsen-Gotha and many other members of the nobility. However it was the common people who profited from this very affordable healing method.

## Understand!

Homeopathy recognizes a life energy flowing and working in every person's body. This life energy or vital force interacts with and connects our emotional and physical dimensions.

The extraordinary power of homeopathic remedies is achieved by a specific production process. The right homeopathic remedy connects with the individual frequency of a person's vital force, harmonizes and strengthens it. This enables the vital force to ultimately lead the body into a self-healing process.

## Trust!

The most important characteristic of homeopathic remedies is the use of highly diluted substances. Therefore homeopathic remedies are not known to cause the 'side effects' that are common and tolerated in many modern medications.

The experience of the greatest masters of Homeopathy of the past 200 years is meticulously documented in homeopathic literature – the most extensive long-term study in Western health care!

## Experience!

Historically famous Homeopaths world wide have experienced and noted that Homeopathy can stimulate the self-healing process specifically in persons who have so called "chronic conditions".

During an initial homeopathic session of 1.5 to 2 hours your Homeopath will ask you many questions about your condition, personality and life.

After a detailed elaboration of the gathered information the Homeopath will recommend a specific homeopathic remedy for you. Homeopathic remedies are available over the counter in most health food stores or online and they are very affordable.
